## ABOUT ME

Full-Stack Web Developer and Problem Solver skilled in **HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, MySQL, Python, and Bash programming on Linux**. Proficient in **Data Structures and Algorithms**, with hands-on experience building **websites, web applications, and desktop apps**. Known for writing clean, efficient code, solving complex bugs, and automating tasks with Bash. Passionate about delivering fast, responsive, and scalable solutions to real-world problems.

## EDUCATION

### Adamas University

Bachelor in Computer Application

Barasat-Barrackpore Road, West Bengal

Aug. 2023 – Jun 2027

### Jawahar Navodaya Vidyalaya

Secondary and Higher Secondary

Gopalpur-Birbhum, West Bengal

Jul. 2015 – Apr 2022

## PROJECTS

### Federated Learning Supply Chain Control Tower | Python, PyTorch, FedAvg, Local LLMs

2026

- Built a privacy-preserving supply chain forecasting system using Federated Learning to train models across multiple simulated nodes without sharing raw business data.
- Implemented FedAvg-based collaborative learning with PyTorch for decentralized demand forecasting and model aggregation.
- Integrated local LLM support to assist with supply chain insights and control tower-style decision workflows.

### Decentralized Voting System | Blockchain, Web3.js, Node.js, Express.js

2024

- Built a decentralized voting system (on Ethereum blockchain) that handled over 1,000 mock ballots with tamper-proof validation.
- Integrated smart contracts with Web3.js to handle voting logic and result validation.
- Built the frontend with HTML, CSS, JavaScript and connected it to blockchain backend using Express.js.

### Mentor Mentee Form | ExpressJS, NodeJS, MongoDB

2024

- Developed a full-stack form-based web app with user authentication and profile upload using Multer. Visualized schema using MongoDB.

### Question Paper Tracking | ExpressJS, NodeJS, MongoDB

2024

- Created a web portal for teachers/HODs to upload, search, and manage question papers. Integrated 2FA login, file upload (Multer), and email notifications via Nodemailer.

### Music Player Application | Python, tkinter, pygame, mutagen

2024

- Created a desktop GUI music player supporting MP3/WAV formats, metadata display, and basic controls using Pygame and Mutagen.

### Game Development | Python, pygame

2025

- Built web-based Pacman, Snake games using Pygame with AI Ghost features.

## TECHNICAL SKILLS

**Languages:** Python, C, Java, Bash, MySQL

**Frameworks:** React, Express, Flask, AngularJS

**Tools:** Git, Docker, VS Code, Eclipse

**Other Skills:** API Development & Integration,

Problem-Solving & Debugging

**Core Stack:** HTML, CSS, JavaScript, Node.js

**Libraries:** pandas, NumPy, tkinter, pygame

**Design Tools:** Photoshop, Figma, Blender, ZBrush
